SURIA CAPITAL HOLDINGS BERHAD

INVESTOR RELATIONS POLICY

1. INTRODUCTION

Investor Relations (IR) is the process through which a corporate organisation conducts effective two-way communications with its shareholders, the financial community and other stakeholders.

The communication is essential to provide information and analysis so that investors will develop a well-rounded understanding of the company and its strategies. At the same time, the company can achieve a fair market valuation for its securities, create a body of investor support and climate of favourable opinion.

The result is a loyal shareholder base which gives the company the ability to approach its capital management exercises with confidence. Ultimately, this will be reflected in the demand for the company's shares and hence the upward movement of the price of shares.

As a public-listed company, it is the responsibility of Suria Capital to consistently inform the shareholders, stakeholders and the general public of the company's development, about Suriagroup, its management, operations, financial situation as well as its future prospects. This is to be formalized through an appropriate and effective IR Policy.

The aim is to fairly and accurately represent the Group so that investors and potential investors can make properly informed investment decisions, and others can have a balanced understanding of the Group and its objectives.

2. OBJECTIVE OF POLICY

This Investor Relations Policy (Policy) will serve two purposes:

- a. as a statement to the Suria Capital's shareholders and other stakeholders of how Company intends to keep them informed of material developments and maintain effective communications with them,
- b. as the key reference for Suria Capital's IR Programme and provide a framework of processes and procedures, upon which the Company can successfully implement its IR programme.

This Policy is meant to serve the Group's shareholders and stakeholders. It will apply to Board of Directors of Suria Capital Holdings Berhad and all staff of the Company.

The Policy will help to set out how Suria Capital will meet those obligations as comprehensive as possible. In formulating this Policy, Suria Capital has taken into account recommendations from the following documents:

- The Malaysian Code on Corporate Governance 2012
- Investor Relations Put Into Practice, Bursa Malaysia Securities Berhad
- Investor Relations Policy of Bursa Malaysia

The Company also has to comply with the disclosure obligations contained in the Listing Requirements of Bursa Malaysia Securities Berhad (the Exchange) which should be read together with this Policy.

3. GENERAL PRINCIPLES

Suria Capital is obligated to maintain its corporate credibility and instill investor confidence in the Group by having a structured approach to the communication of material information to benefit both the Company and its shareholders. In turn, this should be reflected in a fair market value for the Company's securities.

As a whole, the Company's Investor Relations programme is designed to be both proactive and interactive, and is driven by the following principles:

- The Company will always report its financial results and material developments to the Exchange, its shareholders and other stakeholders in an open and comprehensive manner;
- The Company will communicate only through its designated spokespersons;
- The Company will use its website as an additional primary communications channel;
- The Company will proactively address reports and rumours, so as to avoid unnecessary speculation in its securities;
- The Company will give reasonable access to analysts and the media to help them have informed opinions of the Company, but will not seek to influence those opinions;
- The Company will endeavour to meet with its major shareholders at least once in each fiscal year as part of its on-going programme to inform, and obtain feedback on the Company.

4. BASIC AREAS OF FOCUS
