SURIAGROUP DEMONSTRATES CORPORATE SOCIAL RESPONSIBILITY BY DONATING OFFICE ASSETS TO SCHOOLS IN NEED

Kota Kinabalu – Suria Capital Holdings Berhad and its subsidiaries (collectively known as SuriaGroup or Group) announced its recent donation of office assets to two schools in need as part of its Corporate Social Responsibility (CSR) initiative. The donation was aimed at supporting educational institutions that may lack essential resources to provide a conducive learning environment for students.

With a steadfast commitment to giving back to the community, SuriaGroup acknowledges the importance of education and strongly believes that every student deserves access to quality learning opportunities. Recognising the struggle faced by many schools in meeting their basic needs, the Group decided to take action and extend a helping hand.

The generous donation included a range of office assets, such as desks, counter tops, whiteboards, noticeboards, cabinets, partitions, and selected artworks. These assets will significantly improve the functionality and overall aesthetic appeal of the schools' administrative offices, staffrooms, and studyrooms.

The two fortunate schools that benefited from SuriaGroup's donations were SK St. Agnes and SK Kiansom, Inanam. These schools were selected based on their financial limitations and demonstrated need for office furniture and equipment. Both schools serve a diverse student population and are dedicated to providing a quality education despite limited resources and poor access roads.

By offering these office assets, SuriaGroup aims to contribute to the improvement of the learning experience for students at SK St. Agnes and SK Kiansom. The Group is committed to helping create an enabling environment with facilities that enhance educational outcomes and inspire the next generation.

The CSR efforts of SuriaGroup extend beyond this donation. Over the years, the Group has actively engaged in various community initiatives, reflecting its dedication to responsible business practices and the well-being of society. These efforts include

volunteering, environmental conservation projects, and ongoing partnerships with local NGOs.

The management at SuriaGroup expressed its gratitude to all employees who contributed their time, efforts, and expertise to make this donation possible. The Group is also hopeful that this gesture serves as an inspiration to other businesses in the community to recognise their social responsibilities and find ways to support schools and educational institutions in need.

Together, we can make a significant difference in the lives of students, teachers and the overall community.
